

INTRODUCTION

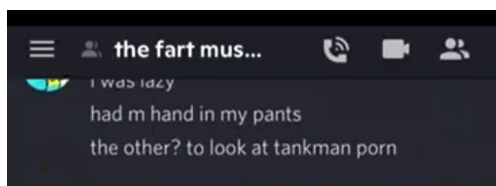

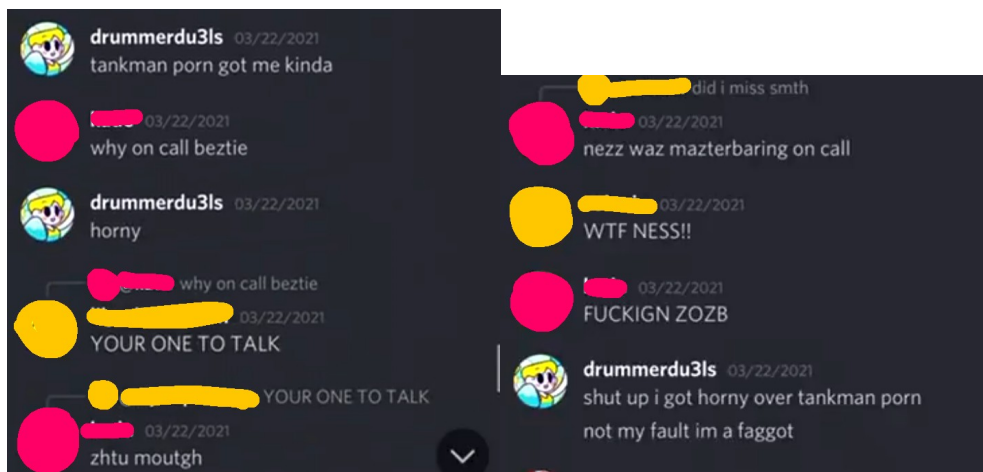

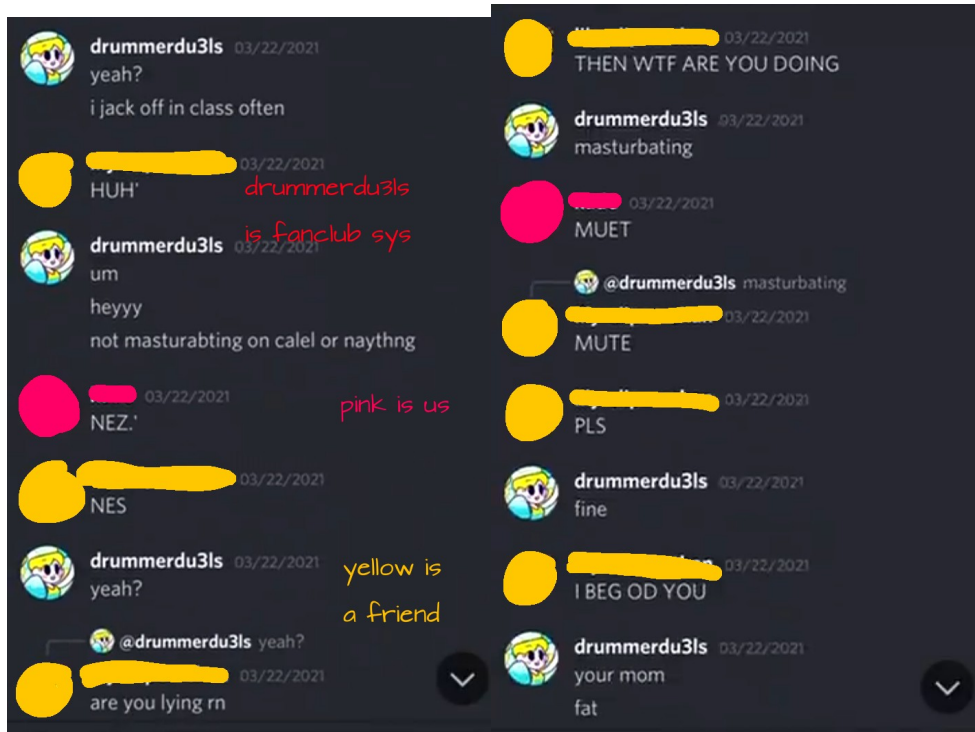

hi, i'm ness! host of the coral reef.

this is my doc on me and my sysmates experiences with tengoku/francis. please note this is not every screenshot we have, and a bigger doc will be coming soon

JACKING OFF ON CALL

we met francis in 2020 via a mutual. we thought they were cool and would defend them when drama came about. at the time we didn't have discord, due to it being triggering to us.

in 2021, once we finally got discord we added tengoku, everything seemed fine until the tankman anal sex gc (name was ironic if it wasnt obvious) the name was later changed to the fart museum, which is why it is different in these scs.

ADDRESS TRADING.

in march 2021, there was a fallout between us and tengoku when we were accused of racefaking, and grooming. however, before cutting us off, tengoku address

traded with us.

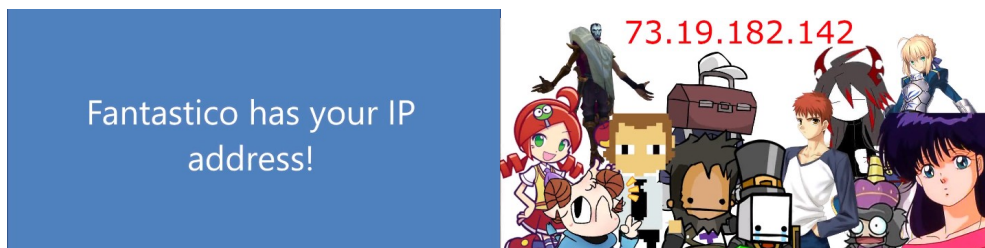

a few months later, they did the ***exact same thing***, but with our zip codes.

(censored for obvious reasons)

GETTING MY IP ADDRESS

a fantasticolet (a member of tengokus friend group chat thing) sent us an ip grabber disguised as a cat video. tengoku later sent us a video that contained this.

while our ip doesnt give you our address, calico (a member of our system) was freaked out by it.

calico had a fucking breakdown over this !! thank you tengoku :]

SENDING NSFW

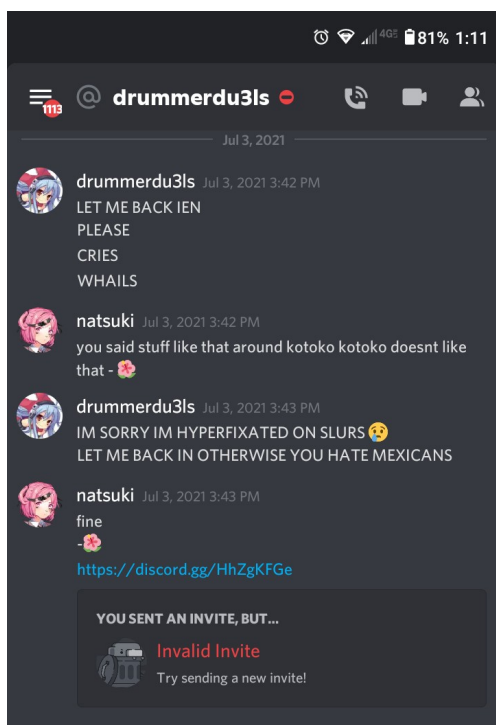

this wasnt only sent once, he sent it multiple fuckin times 🤔

then legit just sending castle crashers rule34 (knowing we were triggered by cc!!)

SAYING SLURS AROUND A LITTLE

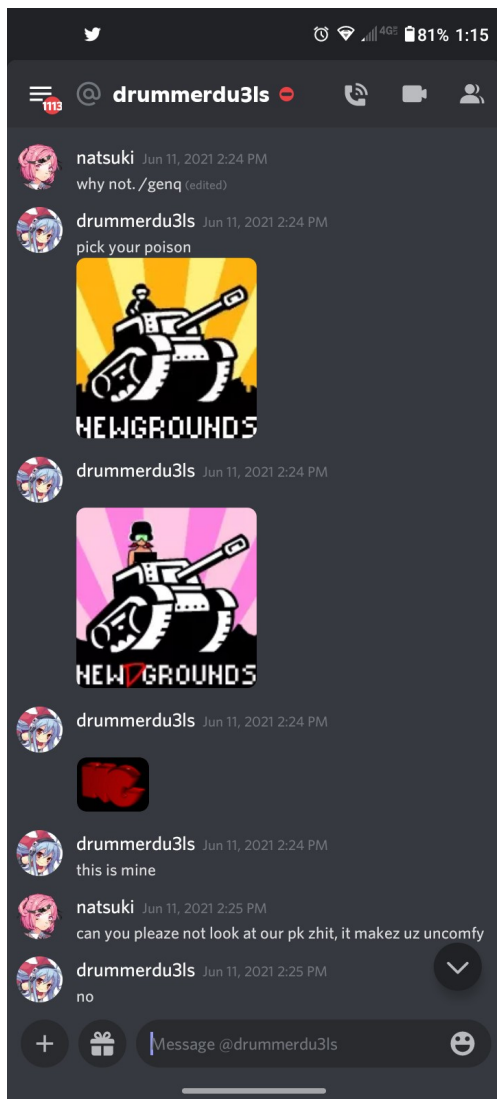

kotoko is **EXTREMELY** uncomfortable when it comes to slurs and swearing. while tengoku didnt know this, they knew stim was a little. they'd interact with her often and it was obvious.

CROSSING BOUNDARIES

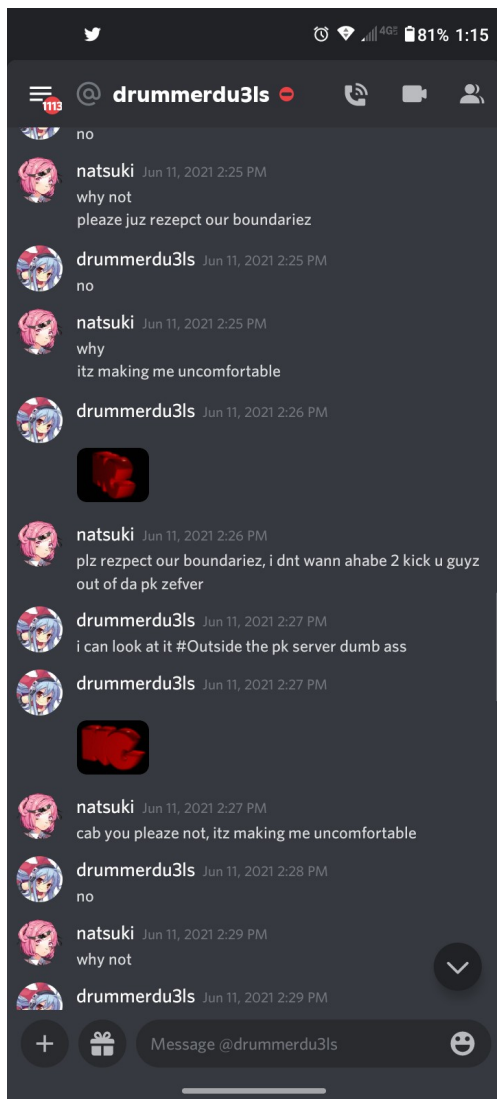

tengoku looked at our pk/pluralkit information multiple times without permission.

due to this, we have privated anything pk related.

also sending us lewd shit 🙄🙄 (yes its censored but its still weird we are bodily 13)

please
itz making uz uncomfortable, we do not feel comfortable w
u looking at iur memberz w/o our knowledge

they continued to spam ng, knowing that seeing
shit repeated through text or even on call can cause us to have tic attacks

the conversation ended there.

CONCLUSION/HOW THIS AFFECTED US

being tengokus friend ruined us mentally. we have extreme paranoia because of them now. they have caused us to split, go into breakdowns, fakeclaim ourselves, and believe we are the bad person in this situation.

please don't interact with them, just block and move on.
